Organizational Description

Commonwealth Regional Specialty Hospital is a long term acute care hospital located on the sixth floor of The Medical Center at Bowling Green.

The Bowling Green-Warren County Hospital Corporation (the "Corporation"), is a non-stock, nonprofit Kentucky corporation that operates a hospital facility in Bowling Green, Kentucky, under the name "The Medical Center at Bowling Green" and, since October 1996, a hospital and nursing home facility in Scottsville, Kentucky under the name "The Medical Center at Scottsville." The two facilities are part of one corporation but are separately licensed by the State of Kentucky. References herein to "The Medical Center" refer to the combined facilities. References herein to "The Medical Center at Bowling Green" refer to the Corporation's facilities in Bowling Green, Kentucky, and references herein to "The Medical Center at Scottsville" refer to the Corporation's facilities in Scottsville, Kentucky.

The Corporation has been determined by the Internal Revenue Service (the "IRS") to be a charitable organization as described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code") and is exempt from federal income taxation by virtue of Sections 501(a) and 501(c)(3) of the Code.

The Corporation is owned and controlled by Commonwealth Health Corporation, Inc., a non-stock, nonprofit Kentucky corporation ("Commonwealth"), under a holding company arrangement, which was established in 1984. Commonwealth has been determined by the IRS to be a charitable organization as described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code") and is exempt from federal income taxation by virtue of Sections 501(a) and 501(c)(3) of the Code.

The Medical Center at Bowling Green was originally founded as the City Hospital in 1926. In 1949, the city hospital became jointly owned by the City of Bowling Green, Kentucky and the County of Warren, Kentucky and was operated by the Bowling Green-Warren County Hospital Commission (the "Commission") as a public hospital. In 1977, the Corporation became the successor to the Commission with a stated purpose of leasing and operating existing Commission facilities and financing, constructing and operating a new hospital facility.

Today, The Medical Center at Bowling Green's buildings include approximately 530,000 square feet and its campus has increased to approximately 56 acres.

Commonwealth Regional Specialty Hospital

In 2004, Commonwealth Health Corporation opened the doors of Commonwealth Regional Specialty Hospital. Commonwealth Regional Specialty Hospital offers residents of the area convenient access to experienced physicians, quality healthcare services and health information.

Commonwealth Regional Specialty Hospital's purpose is to serve the needs of patients and physicians of the Greater Bowling Green area. It is a Long-Term Acute Care (LTACH), Specialty hospital focused on treating complex, high acuity patients with advanced clinical skills, compassion and sensitivity to the needs of the patient and family. Commonwealth Regional Specialty Hospital uses a multidisciplinary approach and occupies 28 licensed beds. Commonwealth Regional Specialty Hospital acts as a "hospital-within-a-hospital" leasing space from The Medical Center. It operates as a separate and distinct entity with its own board of directors, medical staff, and employees.

Service Area Description

The primary service area for Commonwealth Regional Specialty Hospital is Warren County and the contiguous counties of Allen, Barren, Butler, Edmonson, Logan, and Simpson, which had a population according to the 2010 U.S. Census of approximately 244,900 and an estimated July 1, 2014 population of approximately 282,847. Bowling Green, Kentucky, where the Corporation's major facilities are located is the county seat of Warren County. According to the 2010 U.S. Census, Bowling Green had a population of approximately 58,000 and Warren County had a population of approximately 120,460. Bowling Green has recently been designated a metropolitan statistical area.

Mission, Vision, and Values

MISSION

Commonwealth Health Corporation's mission is to care for people and improve the quality of life in the communities we serve.

VISION

Commonwealth Health Corporation will be an innovative leader in healthcare delivery and outcomes.

WHAT WE VALUE

Quality

We are committed to providing the highest level of care and service at every opportunity.

People

People are our most valuable resource. We work together to achieve our organization's goals. We treat everyone with honor, dignity, and respect.

Accountability

Each of us is responsible for managing our resources ethically and wisely.

Purpose

The Community Health Needs Assessment has been completed for the following reasons:

- To help meet the Hospital's mission to care for people and improved the quality of life in the communities we serve.
- To comply with the Patient Protection and Affordable Care Act of 2010 and maintain the Hospital's tax exempt status.
- To establish community health needs for the Hospital's service area, to determine areas of greatest need and for the Hospital to develop a strategic plan to address those needs.
- To involve internal and external resources to ensure needs of individuals are met and that efforts are not duplicated.
- To create a sustainable process for conducting Community Health Needs Assessments that can be continued for future assessments.

Executive Summary

The Patient Protection and Affordable Care Act of 2010 included a provision that requires every tax exempt, non-governmental hospital to:

- Conduct a Community Health Needs Assessment (CHNA) at least every three years;
- Adopt a Strategic Implementation Plan that includes how the needs identified in the assessment will be met; and
- Report to the Internal Revenue Service via its 990 tax form how it is meeting its implementation plan.

The Community Health Needs Assessment Report details the process used to collect, disseminate, and prioritize the information in the assessment. Commonwealth Regional Specialty Hospital worked closely with local healthcare and public health leaders throughout the assessment process.

The end result of the assessment process was the development by the hospital of a strategic plan to address the major needs identified.

Process

In September of 2011, Commonwealth Regional Specialty Hospital joined with the Barren River District Health Department and numerous other health care providers, community organizations and leaders to form the Barren River Community Health Planning Council. The goal of the Council was to plan and implement a community health needs survey and assessment process followed by identification of key health care needs for the community and then development of strategic plans to meet those needs. The process used was primarily based on the Mobilizing for Action through Planning and Partnership (MAPP). Meetings were held twice monthly for three months and then monthly.

In July 2014, partners began cycle 2 of assessment and planning activities with a focus on the local healthcare system. The priority health issues are Cardiovascular Disease, Diabetes, Obesity, Lung Disease, and Drug Abuse and Addiction. Over the fall and winter 2014-2015 partners voted to rename the council to Barren River Initiative to Get Healthy Together or (BRIGHT) Coalition. Assessment Activities follow the Mobilizing for Action through Planning and Partnerships (MAPP) framework.

The coalition reviewed evidence- based practices and strategies for improving community health status. They identified gold standard practices and policies that would be found in an ideal situation. The BRIGHT Coalition and the Hospital's strategic implementation plan are based on a few key priority gold standards to help address the needs of the community.

COMMONWEALTH REGIONAL SPECIALTY HOSPITAL IMPLEMENTATION STRATEGIES FOR ADDRESSING COMMUNITY HEALTH NEEDS 2016 – 2018

Through the research and recommendations from the Community Health Needs Assessment and hospital staff, administration and Board of Directors the following strategies will guide COMMONWEALTH REGIONAL SPECIALTY HOSPITAL leadership in addressing our community’s health needs over the next three years.

1. Continue to Strengthen Partnerships With Key Community Health Providers & Organizations

A very beneficial component of the Community Health Needs Assessment process for the hospital was participating as an active member of the Barren River Community Health Planning Council. This reinforced for us the importance of each community health provider in our quest to meet the healthcare needs of all individuals in our community. Over the next three years, Commonwealth Regional Specialty Hospital will focus on continuing to strengthen relationships with the following organizations and to develop collaborative efforts to improve health care within Warren and surrounding counties. Partnerships may include joint funding of initiatives, providing leadership on governing boards, information sharing and cooperative work on health related grants. This list is not meant to be exclusive and other organizations/providers will be added as identified. Through the CHNA, these agencies were identified as those that directly address community health needs and serve the populations within Commonwealth Regional Specialty Hospital’s service area:

American Cancer Society – Warren County Chapter
Kentucky Heart & Stroke Association
Barren River District Health Department
Bowling Green Housing Authority
Fairview Primary Care Center
Kentucky Cancer Program
Medicaid Managed Care Programs/Case Management
Refugee Assistance Center
Southcentral Kentucky Community Action

In 2012 Commonwealth Regional Specialty Hospital asked our referring physicians two questions. The first question was in regard to what we could be doing that we were not doing. The consensus was that we need to do more marketing to physicians in surrounding areas. With continual growth of physicians in the BRADD region we feel that this is an area that continues to need focus during the years 2016-2018. We also plan to strengthen partnerships with physicians and referring hospitals by sharing with them our expertise and resources.

The second question was in regard to services that we provide to the elderly population at Commonwealth Regional Specialty Hospital. One of the services emphasized was the individualized social services plans of care for the elderly population. Our Care Coordination team takes pride in obtaining proper placement for our patients in continuum of care. We have chosen to continue to focus on this area during 2016-2018 but expand for all age populations of our patients. The Care Coordination Department will continue to research resources and build relationships with skilled nursing facilities, Inpatient rehab facilities, assisted living facilities, home health, hospice care and companion care services to ensure our patients are offered the resources that fit their individual needs.

2. Preventative Care & Disease Management Focus

The Community Health Needs Assessment provided data specific to preventative care and disease management. Council members reviewed the data and determined the following focus areas: Diabetes, Obesity, Cardiovascular Disease, Lung Cancer, and Drug Abuse Addiction. Drug Abuse Addiction doesn't apply to the LTACH population at Commonwealth Regional Specialty Hospital, nor does Commonwealth Regional Specialty Hospital have programs implemented to support Alcohol and Drug Abuse Addiction. Therefore that topic will not be addressed.

The hospital's overall goal is to educate individuals on the importance of taking ownership of their health and wellbeing.

Cardiovascular:

- Continue to promote and support education to the community about risk factors associated with heart disease and stroke, and how to modify those risk factors through healthy lifestyle choices. This will be an ongoing campaign utilizing all media outlets, newsletters, programs at the Health & Wellness Center and through Worksite Wellness for employer groups, civic organizations, etc.
 - 25 Stroke screenings at BAC Health Fair in January 2016
 - 14 stroke screenings at Kentucky Partnership for Family Health and Safety in January 2016
 - 70 stroke screenings at SCA Personal Care in March 2016
 - 21 stroke screenings at HeathCo in March 2016
 - 38 stroke screenings at Simpson County Community Health Fair in March 2016
 - 150 students educated at Boys and Girls Club on Brain Protector Program in March 2016
 - 670 students educated at Jody Richards Elementary School on Brain Protector Program in April 2016

 - Provided education to 75 students on the dangers of smoking and lung cancer to the International Center in March 2016

- Provided education on the Dangers of Smoking to 600 Rich Pond Elementary students at the Healthy Kids Fair in March 2017
- Provided education on the Dangers of Smoking to 300 students at South Warren Middle School at the Health and Safety Fair in May 2017
- Provided education on the Dangers of Smoking to 350 Rich Pond Elementary students at the Healthy Kids Day in April 2018
- Provided education on the Dangers of Smoking to 350 students at South Warren Middle School at the Health and Safety Fair in May 2018
- *WellNews* article, “What to Expect at your Lung Cancer Screening” in Winter 2019
- Continue to promote and support with community partners for implementation of smoke free environments throughout the community.
- Provide the American Lung Association’s Freedom from Smoking at the Health and Wellness Center and worksites.
 - Offered Freedom from Smoking Program at the Health and Wellness Center in January and August 2016
 - Offered Freedom from Smoking Program at the Health and Wellness Center in January, April and July 2017
 - Offered Freedom from Smoking Program at the Health and Wellness Center in January, April, July, September and October 2018
 - Offered Freedom from Smoking Program at the Health and Wellness Center in January 2019

Substance Abuse and Addiction

- Educate community on dangers of substance abuse through articles in *WellNews*
- Offer education programs on the Trends in Drug Abuse to community, nurses and physicians
 - Women in charge luncheon, Melinda Joyce spoke about Trends in Drug Abuse in July 2016
 - Presentation to 50 students at the International Center on alcohol and substance abuse in September 2018
 - Drug abuse forum in November 2018- 150 present
- Partner with Appalachia High Intensity Drug Trafficking Area to coordinate “On the Move” program for 7th and 10th grade students in Warren County

- Educated 7th grade students at Drakes Creek Middle School and Moss Middle School in September 2016.
- Educated 10th grade students at Warren East High School in September 2016
- Educated middle school students at Moss Middle School and Drakes Creek Middle School in November 2017
- Educated 10th grade students at Greenwood High School in November 2017
- Distribute drug testing kits through “Give Me a Reason” drug prevention program offered by Appalachia High Intensity Drug Trafficking Area
 - Provided 48 drug kits at the Warren County Back to School Bash in July 2016
 - Provided 30 drug kits at the Edmonson County Back to School Bash in July 2016
 - 9 Drug kits provided at the Edmonson County Back to School Bash July 2017
 - 5 Drug kits provided at the Warren County Back to School Bash July 2017
 - Gave out 22 drug kits at Warren County Back to School Bash in July 2018

3. Access to Care

- Work in conjunction with WKU Institute for Rural Health to provide glucose screenings and A1C screenings/Diabetes Education for those that have a high glucose reading in such areas as Allen, Butler, and Edmonson counties.
- Enhance awareness to healthcare providers, discharge planners, and case managers with managed care throughout the region of services available through CRSH for patients in need of long term care hospitalization through visits, direct mailing of information, follow up calls and open house/tour of facility.
- Continue to build relationships with quality, long term care facilities throughout the region for patients needing additional care after discharge from CRSH.
- Establish physician offices such as Med Center Urgent Care, Women’s Health Specialists and Primary Care practices that accept Medicaid.

- Work in conjunction with community health partners to promote the progress of programs such as the Community Health Worker and the Cancer Patient Navigator to ensure proper access to care for those who need continued care.

Evaluation/Impact of Strategic Plan 2013 - 2015

1. Continued Partnerships With Key Community Health Providers & Organizations

Key partners and programs are listed below:

- Appalachia HIDTA (High Intensity Drug Trafficking Area)
 - On the Move mobile trailer for drug prevention 7th and 10th grade
 - Give Me a Reason Drug prevention programs for youth
- National Stroke Association
 - LEAP program for stroke survivors (Lifelong Education and Advocacy Program)
- Kentucky Heart Disease and Stroke Prevention Task Force
 - Care Collaborative blood pressure screening tool
- American Lung Association
 - Freedom from Smoking cessation program
- American Heart Association and Society of Cardiovascular Patient Care
 - Hands only CPR training in the community
 - Heart walk sponsor
 - Early Heart Attack Care
- Norton Healthcare and UK Healthcare Stroke Care Network
 - SCOPE Stroke screenings
 - Brain Protector program
 - Adult Education stroke program
- Barren River District Health Department
 - Barren River Initiative to Get Healthy Together (BRIGHT) Coalition
 - HIV screenings
 - Community Health Worker program
 - Colon Cancer Screening
 - Diabetes Prevention Program (CDC)
- Bowling Green Housing Authority

- Charity Care guidelines expanded
- Screenings at The Core offered in Scottsville
- EMS has the ability to transmit EKG to TMC from rural areas
- Community Clinic and Dental Clinic expanded to offer medical and dental care to bridge gap in care

Communication Plan

Commonwealth Regional Specialty Hospital will publish the Community Health Needs Assessment, inclusive of the survey results and strategic plan, on its website and make hard copies available to the public upon request. The results will also be incorporated into the hospital's annual IRS tax form 990 submission.

Conclusions

Commonwealth Regional Specialty Hospital has been totally committed to the Community Health Needs Assessment throughout the process. The Community Health Needs Assessment has strengthened relationships with other healthcare providers and organizations in the community. The survey led to data driven identification of key community health needs. The hospital has developed a detailed strategic plan to address these needs over the next three years with the ultimate goal to improve the quality of life in the communities we serve.
