SERVICE EXPANSION AND ENHANCEMENT

- High Dose Rate (HDR) therapy, an internal form of radiation therapy, is now used to treat prostate and gynecologic cancers.
- Opening of the Med Center Health Hematology & Oncology Breast Clinic streamlines the diagnosis and treatment of breast cancer.

- Groundwork laid for joining the UK Markey Cancer Center Research Network which will allow patients the opportunity to participate in clinical research studies locally.

UK MARKEY CANCER CENTER AFFILIATE NETWORK

Membership provides The Medical Center at Bowling Green with access to

the latest clinical trials for patients, educational opportunities for physicians and staff, and outreach and education sources for the community.

MORE THAN **13,200** Cancer Screenings performed through Med Center Health

Over 580 Lung cancer screenings

Over 11,000 Screening Mammograms

Over 1,700 Colonoscopies

PATIENT SERVICES

During more than 830 encounters, the **Patient Navigator** connected cancer patients with resources that remove barriers to care.

Financial Support Services address lack of transportation, needed medications and food insecurity.

Monthly **Cancer Support Group** meetings held virtually via Zoom.
