Other Facilities \$9,393
Gary A. Woodward Nursing Scholarship Fund \$2,000
TOTAL \$40,997,825

Dear friends,

Because you care, Med Center Health Foundation is able to serve the community through The Community Clinic, The Dental Clinic, Hospitality House, Cancer Center and other services offered at Med Center Health. In calendar year 2021, you supported our first ever Food Truck Frenzy and Stock the Stocking initiatives. You continued to give to the 17th Annual Virtual Charity Ball and Make the Season Bright Program ensuring these fundraisers helped meet our community needs.

Through the highs and lows of the year, one thing remained constant: the Southcentral Kentucky community always comes together to help.

Med Center Health started 2021 by offering COVID-19 vaccines at various locations throughout our system. The community answered the call and eagerly embraced the opportunity to get vaccinated. We ended 2021 with the tornadoes and storms that devastated many—before the sun even came up on December 11, 2021, the community was there to help victims and survivors. Through the highs and lows of the year, one thing remained constant: the Southcentral Kentucky community always comes together to help.

This Annual Report is a testament to the generosity of everyone in our greater community. To the donors, friends, volunteers, businesses and organizations who make our work possible, we thank you for your support. You demonstrate exactly what it means to be a community united for each other.

Gratefully,

Amy C. Hardin
Executive Director
Med Center Health Foundation

Kathy A. Smith
Director Annual Giving
Med Center Health Foundation

Thank you

We extend our sincere thanks to Ron Sowell and Doris C. Thomas, who both retired from Med Center Health in 2021. For 21 years, their leadership, hard work and dedication helped the Foundation assist countless patients in need, and their vision will guide the Foundation for years to come.

TORNADO RELIEF

On December 11, 2021, a devastating series of tornadoes struck Kentucky. In the days that followed the storms, Med Center Health Foundation worked with hospital leadership to establish the Med Center Health Employee Tornado Relief Fund. Med Center Health employees were asked to donate to help their colleagues and friends. The outpouring of support was incredible. To date, this fund has raised more than \$155,000 to assist employees impacted by the storms. In addition to employees, many of the Foundation's community partners contributed to help those in need.

The tornado truly turned preregistration clerk Britt Miller's life upside down. As she, her

husband and their little dog huddled in their bathroom, they heard the sound of a freight train coming right at them. "It was surreal," she said. "The house was coming apart and all the lights were still on. Then the floor started moving." The next thing she knew, she was trapped under the rubble of their home almost 100 yards away. Rescuers found Britt and her husband when they heard the dog barking. Although severely injured, both survived; and their dog was only slightly injured. Through the tornado relief fund, they were able to replace their vehicle and help pay medical bills. "This has all made me not sweat the small stuff," Britt said, "and it's made me stronger because we survived it. We're so thankful for the help we received through the tornado relief fund."

Halil Asllani, with The Medical Center at Bowling Green Environmental Services Department, was asleep with his wife when two of their daughters came into the room crying, "Daddy, daddy, a tornado is coming!" He didn't believe them at first, but then realized they really were in danger. He gathered his family together to hide in a closet—just a few seconds later, the

Halil Asllani and Britt Miller (front row) received replacement vehicles following the December 2021 tornadoes. Pictured with Halil and Britt are Tammy Basham, Shelby Harwood, Steve Ramsey and Amy Hardin (back row) who served as core members of the team who helped administer the Med Center Health Employee Tornado Relief Fund.

Britt Miller's home was destroyed during the tornado that ravaged her neighborhood.

tornado hit. "It was like a bomb," he said. "I come from a country where there has been war since 1999. This was like that, but sudden, without warning." The tornado hit the house, shattering the windows and destroying the family car. "Med Center Health found us a place to stay that day and soon after a little house where we lived for three weeks. We are grateful for all the help we have received." Through the tornado relief fund, the Asllanis also received a vehicle to replace one lost to the storm.

The tornado relief fund has assisted more than 40 Med Center Health employees affected by the storm, ranging from replacing groceries lost due to power outages to purchasing vehicles.

Other items the fund has helped provide are:

- Hotel rooms immediately following the storms
- Rent/deposits on new places to live
- Baby food and clothes
- Christmas presents and decorations for families with children
- Insurance deductibles
- Eyeglasses
- Generators
- Clothing, linens and bedclothes
- Furniture and appliances

Med Center Health Foundation is grateful to everyone who contributed to the Tornado Relief Fund. Your compassion has made a huge difference to employees impacted by the storm.

grants

2021 posed many challenges, but the Foundation continued to provide both improved healthcare and access to medical and dental services to thousands of local residents. Through grants and community events, Med Center Health Foundation raised funds that made a difference in our communities.

WHAS Crusade for Children

Thanks to a \$10,000 grant received from WHAS Crusade for Children, phototherapy equipment upgrades were purchased for the Neonatal Intensive Care Unit (NICU). Phototherapy brings healing to babies born with jaundice, such as those with Neonatal Abstinence Syndrome. Through this grant, two Natus NeoBLUE overhead lights were purchased, as well as high tech covers for the GE Bilisoft Phototherapy System. With traditional light therapy, babies cannot be swaddled or held; but the Bilisoft System meets medical and emotional needs by allowing new moms to hold their babies. To learn more about WHAS Crusade for Children, visit www.whascrusade.org.

Delta Dental

A \$23,741 grant from Delta Dental was instrumental in The Dental Clinic converting to digital bitewing xrays for patients. These provide clearer images for the dentist, which can result in early detection of dental disease. They also require less radiation exposure and fewer retakes than traditional bitewing xrays. In addition, the grant provided for the purchase of a new autoclave for sterilization of all metal instruments.

Southwest Airlines

Med Center Health Foundation was selected as one of Southwest Airlines Million Dollars of Thanks grant applicants. One hundred e-passes were awarded to the Foundation and included in the Charity Ball on-line auction. \$15,400 was raised and dedicated to The Community Clinic mobile dentistry program.

FCC – Telehealth

Med Center Health was awarded a \$100,325 grant from the Federal Communications Commission (FCC) to purchase telehealth carts and remote monitoring devices so that at-risk COVID-19 patients in our rural areas can be monitored remotely. These devices provide four hospitals (The Medical Centers at Albany, Caverna, Franklin and Scottsville) and our rural health clinics the flexibility to move the cart to serve patients who require constant monitoring due to a COVID-19 diagnosis. The carts also help rural areas connect patients with specialists across the system, thus reducing COVID exposure. Even after the pandemic, the carts will provide access to quality care for those who might not otherwise be able to see their doctor in person.

State Farm

In 2020, The Dental Clinic was awarded the \$25,000 State Farm Neighborhood Assist® grant. In 2021, the money was used to expand The Dental Clinic's reach to underserved children through utilizing the Delta Dental Mobile Dental Clinic for screenings at The Foundry Community Center in Bowling Green. Dental screenings were provided to pre-kindergarten students and their families.

Make The Season Bright

The virtual Make the Season Bright event was held in December at The Medical Center at Bowling Green with the annual lighting of a Christmas tree made brighter by lights representing donations. Included was a special strand of green lights in honor of our frontline healthcare heroes. A huge “thank you” to everyone who donated to support the Hospitality House through Make the Season Bright and to Chris Allen, of Classic Hits SAM 100.7, who emceed the event. The 2021 Make The Season Bright event raised over \$14,000 for the Hospitality House.

The Hospitality House, located on the campus of The Medical Center at Bowling Green, provides a much-needed respite for family members of patients at The Medical Center and Commonwealth Regional Specialty Hospital. The house also provides a comfortable place to stay for patients receiving cancer and other daily treatments who have trouble traveling to and from their homes.

Stock the Stocking

A new initiative for 2021, Stock the Stocking was a special addition to Make The Season Bright. Med Center Health employees and members of the community donated items to stock the pantry at the Hospitality House. Everything from shampoo to socks to soup was collected. These items continue to make life a little easier for guests, including cancer patients undergoing therapy at The Medical Center Cancer Center and those with loved ones in The Medical Center at Bowling Green and Commonwealth Regional Specialty Hospital.

events

Food Truck Frenzy

The 2021 Food Truck Frenzy, in partnership with The Groovy Gus Donut Bus, was a great success. Ten food trucks and vendors participated, bringing out hundreds of people for good food and fun. Funds raised from this event supported The Community Clinic and The Dental Clinic, providing much-needed health and dental care to individuals and families who otherwise could not obtain these services.

imagine

CHARITY BALL 2021

The Ball

The Charity Ball, one of the premier charity events in this region, benefits The Community Clinic and The Dental Clinic. BECAUSE YOU CARE, more than \$324,000 was raised from this virtual fundraiser in 2021! What an awesome tribute to our community to provide health and dental care to those who cannot afford it on their own or to some who need a little help getting back on their feet. Thank you to all who sponsored, made a donation, purchased a raffle ticket or an on-line auction package. WE ARE GRATEFUL!

Stephen Stucy, alongside Kathy Smith and Amy Hardin with the Foundation, hosted Charity Ball Live.

The Auction

Each year, the Ball's auction provides significant funding for the benefit of the Clinics. Thank you to the generous donors for extraordinary giveaways, experiences and treasures, and to the volunteers who helped secure these items.

BEHIND THE SCENES LOOK

The Community Relations Committee starts working on the Ball in January of each year. More than 800 hours goes into planning for this event. The Virtual Ball was a huge success thanks to Stephen Stucy and Sublime Media Group! (Committee members listed on page 7.)

WHY IS THE BALL IMPORTANT?

The need in our community is great, and we continue to see more and more people reaching out to us for help. This is our community and we take care of each other!
