Director Annual Giving

A note from Board Leadership

Dear Friends of Med Center Health Foundation,

First and foremost, thank you for your support of the Foundation. Since its inception in 2000, more than **\$39 million** has been raised through generous donor support. Because of you, The Community Clinic, The Dental Clinic, the Hospitality House, The Medical Center Cancer Center, and more continue to provide ongoing services that are vital to our community.

We thank you for choosing Med Center Health Foundation as part of your philanthropic giving.

We are honored to serve in leadership roles for Med Center Health Foundation. It is a privilege to serve alongside our Board of Directors and the Foundation staff to strengthen current initiatives while preparing for what is to come. The world has changed in the past several years, and we must be positioned to continue serving those in our community who otherwise would not receive needed healthcare.

Please take time to read about the initiatives and the life-changing work of the Foundation. We are committed to improving the quality of life throughout Southcentral Kentucky. On behalf of the many people whose lives have been changed by your generosity and support, we thank you for choosing Med Center Health Foundation as part of your philanthropic giving!

Michael Cowles
Chairman
Med Center Health
Foundation Board of Directors

John Kelly
Vice Chairman
Med Center Health
Foundation Board of Directors

Medical Assistant Jackie Brown (left) and Naren Nathoo, M.D. (right) with Sophie Bastan.

FAMILY THANKFUL FOR SURGICAL CARE

Sophie Bastan, of Daytona Beach, FL, lived in excruciating pain for months. At age 92, she visited four neurosurgeons who would not perform surgery on her, assumedly due to her age.

Ms. Bastan is the aunt of Bowling Green resident and Med Center Health supporter, Linda Kelly. Linda and John Kelly know firsthand how fortunate our community is to have neurosurgeon Naren Nathoo, MD, PhD, FRCS(C), FACS. Dr. Nathoo performed back surgery on the Kellys' daughter, Victoria, in 2013 with long-lasting results. After the successful surgery, the Kelly family established **The Victoria Kelly Neurosurgery Education Fund**. This fund helps provide continuing medical education to the neurosurgery team at Med Center Health. Because of the wonderful relationship the Kelly family shares with the Neurosurgery department, Linda connected her aunt to Dr. Nathoo. "I told her when she was ready, I would bring her here, and if she could be fixed, he would do it," said Linda.

Within four weeks of their first conversations, Dr. Nathoo had all the tests he needed, and cervical spine surgery was scheduled for November 14, 2022. This surgical procedure has a high degree of difficulty, but the Kelly family and Sophie trusted Dr. Nathoo wholeheartedly to successfully complete the surgery. On December 15, 2022, just one-month post-op, Sophie flew home to Florida. She is doing great and continuing with physical therapy and exercise because she wants to "make Dr. Nathoo proud."

In addition to the surgery, Linda added, "On the first day he saw Aunt Sophie, Dr. Nathoo prescribed her a two-piece plastic neck brace which relieved 90% of her pain. She saw so many doctors in Florida, including pain clinic doctors, and not one of them offered her a neck brace. Dr. Nathoo brings a wealth of knowledge and experience to our community. The medical capabilities provided at Med Center Health are second to none; my aunt's surgery is proof positive of that! We are just so grateful to have such a wonderful doctor at The Medical Center at Bowling Green."

PROGRAMS & IMPACT

HELPING SAVE THE MOST VULNERABLE PATIENTS

As The Medical Center at Bowling Green Neonatal Intensive Care Unit (NICU) grows, so does the need to care for its tiniest and most vulnerable patients. In 2022, Med Center Health Foundation initiated a fundraising drive to purchase the GE Healthcare Giraffe™ Incubator Carestation, which is a life-saver for these babies.

The Giraffe is a state-of-the-art neonatal environment that promotes natural, peaceful healing, while fostering a close bond between babies and their families — allowing them to be present for every step of their baby's journey. Through the generosity of our donors and a Cardinal Uniforms and Scrubs sales event, the NICU was able to purchase two of these vitally important pieces of equipment, totaling over \$66,000.

Med Center Health Foundation ECHO event

MCH CARES - EMPLOYEES HELPING EMPLOYEES

In the wake of the December 2021 tornadoes that impacted Bowling Green, Med Center Health introduced the MCH Cares Program in 2022 as a means for employees to help each other during economic hardship. While the devastation from this one natural disaster caused an immediate outpouring of support during a critical time for so many families, what it brought to light was the fact that economic hardships are happening every day for some co-workers. Their challenges and their needs aren't publicized and garnering attention. These co-workers are many times facing hardships in silence.

The MCH Cares program gives these employees or their eligible dependents (spouse and dependent children) an opportunity to seek financial assistance if they are unable to afford housing, utilities, and other needs because of a natural disaster, major medical event, serious illness or injury, death, or other catastrophic or extreme circumstance beyond the employee's control. And, the program gives all Med Center Health employees the opportunity to reach out a hand and lend their support through the Employees Contributing to Help Others program (ECHO).

EMPLOYEES CONTRIBUTING TO HELP OTHERS (ECHO)

ECHO makes a profound difference and sends a message that Med Center Health employees are passionate about healthcare and about their communities. An employee's donation, in any amount, makes a difference through membership in the Employees Contributing to Help Others program. Employees designate their funding preferences, and 100% of their gifts go toward the initiatives they choose.

Learn more about ECHO at MCHHealth.Foundation/ECHO.

Not Pictured: Anne Afton, Senka Basic, Laura Belcher, Niki Bennett, Amy Hardin, Missy Hilton, Jake Hook, Amanda Howard, Beth McIvor, Kim Mitchell, Vickie Mullins, Beverly Neves and Cayla Rios.

WHAS CRUSADE FOR CHILDREN GRANT

Once again, Med Center Health Foundation was awarded a grant from the WHAS Crusade for Children. The \$7,800 grant for pediatric gym equipment was used to purchase a C-arm swing. Med Center Health has committed 1,000 square feet to create a pediatric rehabilitation therapy gym for the successful treatment of pediatric patients. The continued generosity of WHAS Crusade for Children has provided specialized equipment that is now part of a multi-station pediatric gym benefiting physical, speech, and occupational therapy. Med Center Health Foundation is honored to partner with WHAS Crusade for Children. To learn more about how to donate, visit mchealth.foundation.

BOWLING GREEN METALFORMING SUPPORTS BREAST CANCER INITIATIVES

Med Center Health Foundation was honored to receive a \$19,000 donation from Bowling Green Metalforming to benefit breast cancer initiatives at The Medical Center Cancer Center. Bowling Green Metalforming employees purchased specially designed t-shirts throughout the month of October, raising \$9,500. Magna, the parent company of Bowling Green Metalforming, matched this amount, bringing the donation amount to \$19,000. Med Center Health Foundation Executive Director Amy Hardin was on hand in December 2022 to receive the donation from Bowling Green Metalforming employees. Med Center Health Foundation is grateful for the generosity of this new community partner.

the BALL of the YEAR

The Charity Ball, one of the premier charity events in this region, is a black tie gala attended by those who share the same mission in our community to provide medical and dental care to those who cannot afford it. The evening included cocktails, a seated dinner, a live auction with Stephen Stucy, an amazing on-line auction, and ended with dancing to the fabulous music by The Downtown Band, Nashville, TN.

The Ball of the Year was a huge success as measured by continued awareness of the Foundation's mission in our community, with 752 attendees and raising \$406,000 benefiting direct patient care at The Community Clinic and The Dental Clinic. One hundred percent of all funds raised from this event which included sponsor donations, raffles, Dillard's events and live and silent auctions truly changes lives.

We are grateful for all of our sponsors, donors and attendees who came to celebrate Charity Ball 2022 with us.

The Shadowen Fund assisted with the purchase of the Healthcare Cost and Utilization Project (HCUP) database for inpatient admissions from the Agency for Healthcare and Quality. This national database can be used to identify, track, and analyze trends in healthcare utilization, access, charges, quality and outcomes. Cardiology Fellows Dr. Sameer Saleem and Dr. Mohammad Saud Khan have spearheaded several projects utilizing this database, focusing on various issues associated with cardiac catheterization. Both have had several posters accepted for presentation at the 2023 American College of Cardiology national meeting along with Dr. Hamza Mufarrih, an Internal Medicine resident.

The Shadowen Fund assisted two surgical residents, Dr. Cameron Moore and Dr. Owais Ghani with travel to the American College of Surgeons meeting in San Diego in August 2022, where Dr. Moore presented his research and Dr. Ghani displayed two posters.

Dr. Shadowen would be very pleased to see how her legacy is continuing and flourishing here at Med Center Health.

To donate to the Shadowen Fund, visit [MCHealth.Foundation](#) and click Donate Now.

SHADOWEN LEGACY LIVES ON THROUGH RESEARCH & EDUCATION

The Rebecca Shadowen Research and Education Fund (Shadowen Fund) was established as a means to continue the legacy of Dr. Rebecca Shadowen. An avid researcher and educator, Dr. Shadowen was a mentor to many students, residents and fellows on their research projects.

It is fitting that the Shadowen Fund, Med Center Health Foundation, and the Western Kentucky Heart and Lung Research Foundation work together to be good stewards of the monies available through the Shadowen Fund. A process has been established to request funding tied to research and education. Funding is given based on criteria including, but not limited to: assistance with publishing fees for peer-reviewed journals; purchase of special databases to be used in research projects; or travel to present research at a regional or national meeting.

The Shadowen Fund also sponsors a special speaker annually at the Western Kentucky Heart and Lung/Med Center Health Research Foundation Symposium. Criteria to be the Shadowen Lecturer is restricted to a female physician who is nationally recognized in her specialty and a sought-after speaker. In 2022, the first Shadowen Lecturer was Dr. Martha Gulati, a cardiologist from California who discussed Women and Cardiovascular Disease.

Dr. Cameron Moore and Dr. Owais Ghani, Surgical Residents.

Dr. Martha Gulati, Cardiologist
