

Med Center Health®

[VIDEO TRANSCRIPT]

Nursing at Med Center Health

Jordan Keen, RN

[JORDAN KEEN]

I've been a nurse for three years. I've worked a total of five years at Med Center Health. Once I started working here, I fell in love with the company, I fell in love with my co-workers, and I absolutely loved how the hospital is set up.

One of the first recognitions that I noticed was they have Clinical Support Staff of the Year and Nurse of the Year. I set that as one of my goals. And so, what I try to do is every day I came to work I would find something that I could improve upon and then add that to my next shift.

I was named Nurse of the Year for 2020 at Med Center Health, and for me to get that honor and be chosen as that it was just incredibly rewarding and humbling.

So, Med Center Health has been my home starting out in nursing. It's where I built my foundation, and it's where I plan to continue building and, hopefully, have a lifelong career here.
