

The Medical Center at Caverna - CHNA Activity Log - 2019 -2021

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Chronic Disease	Population Health Management	Reached out to patients to schedule medical appointments for noncompliant patients	3/1/2019-6/30/2019	413	Identified 74 patients with chronic diseases who had not been previously diagnosed	Very effective; have identified 74 patients with chronic diseases who are now being treated; this should improve health outcomes for them in the years ahead
Substance Abuse	Suboxone Clinic	Treated patients with opioid addiction in a Suboxone Clinic	3/1/2019-6/30/2019	25	Many patients are reducing suboxone dosages, abstaining from opioid use, maintaining a job and stabilizing their family life	Highly effective for a % of patients
Substance Abuse	Hart Addiction Resource Team	Developed brochure to help addicted individuals; worked on opening a "half way house"; worked with Hart Co. Jail on providing assistance to inmates being released	3/1/2019-6/30/2019	11	We have developed a brochure that outlines resources available to addicted individuals	Too early in the process to evaluate the impact
Obesity	Adult Day Care	Presentation on the importance of exercise for overall health	4/2/2019	50	Exercises were performed and discussed the importance of exercise	Participants were able to state 2 reasons why consistent exercise is important for their health.
Cardiovascular disease	BG Retirement Village	Blood Pressure	4/8/2019	26	Blood Pressure Results: 15WNL; 7 in the Caution Zone; 4 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Chandler Park Assisted Living	Blood Pressure	4/9/2019	16	Blood Pressure Results: 11 WNL; 4 in the Caution Zone; 1 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Chandler Memory Care	Blood Pressure	4/17/2019	14	Blood Pressure Results: 9 WNL; 4 in the Caution Zone; 1 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Obesity	Housing Authority	Presentation on the importance of exercise for overall health	4/17/2019	18	Exercises were performed and discussed the importance of exercise	Participants were able to state 2 reasons why consistent exercise is important for their health.

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Cardiovascular disease	FPI Health Fair	Stroke Risk Assessments	4/18/2019	400 in attendance to health fair	Blood pressure results: 13 WNL; 16 in the Caution Zone; 1 High	Stroke screenings completed on 30 people others educated on stroke risk as well as signs/symptoms.
Cardiovascular disease	Jennings Creek Elementary School Health Fair	Early Heart Attack Care (EHAC) Education	4/18/2019	10	10 EHAC Educations Completed	EHAC education and the importance of calling 911 completed with 10 people.
Cardiovascular disease	Village Manor	Blood Pressure	4/24/2019	12	Blood pressure results: 6WNL; 5 in the Caution Zone; 1 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
General Health	YMCA Health Fair	Bicycle Helmet & Hand washing Education; General Health Safety information	4/27/2019	102	Education provided to children to enhance their safety and health	Parents were happy with the results; they specifically praised the element of the children learning their parents' phone numbers
Cardiovascular disease	Chandler Memory Care	Blood Pressure	5/1/2019	12	Blood pressure results: 7WNL; 5 in the Caution Zone	Residents are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Richpond Elementary School	Babysitting Class EHAC & Hands only CPR	5/6 & 5/7/19	8	EHAC and hands only CPR were discussed and performed	Participants are able to perform hands only CPR. They are also able to list s/s of a heart attack and when to call 911.
Cardiovascular disease	AFNI Health Fair	Blood Pressure, Body Fat, Stroke Risk Screenings	5/14/2019	20	Blood pressure results: 4 WNL; 10 in the Caution Zone; 6 High	Stroke screenings, blood pressure and body fat completed on 12 people others educated on stroke risk as well as signs/symptoms.
Cardiovascular disease	Carhart Health Fair	Stroke Risk Screenings	5/16/2019	50 in attendance 12 stroke risk screenings completed	Blood pressure results: 4 WNL; 4 in the Caution Zone; 4 High	Stroke screenings completed on 12 people others educated on stroke risk as well as signs/symptoms.
Cardiovascular disease	BG Retirement Village	Blood Pressure	5/20/2019	21	Blood pressure results: 11 WNL; 8 in the Caution Zone; 2 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Vermont Thread Gage Health Fair	Stroke Risk Screenings	5/21 & 5/22/19	100 employees in attendance 19 Stroke Screenings completed	Blood pressure results: 8 WNL; 3 in the Caution Zone; 3 High	Stroke screenings completed on 19 people others educated on stroke risk as well as signs/symptoms.
Cardiovascular disease	Village Manor	Blood Pressure	5/23/2019	11	Blood pressure results: 6 WNL; 5 in the Caution Zone	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Cardiovascular disease	Warren East High School	Babysitting Class EHAC & Hands only CPR	5/29/2019	12	EHAC and Hands only CPR were discussed	Participants are able to perform hands only CPR. They are also able to list s/s of a heart attack and when to call 911.
Cardiovascular disease	Vision Source Health Fair	Blood Pressure	5/31/2019	>700 in attendance 30 Blood Pressures completed	Blood pressure results: 15 WNL; 10 in Caution Zone; 5 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Adult Day Care	Stroke Education	5/7/2019	50	Signs and Symptoms of a stroke were discussed	Participants are able to identify signs & symptoms of stroke as well as when to call 911.
Cardiovascular disease	Chandler Park Assisted Living	Stroke Education	5/14/2019	16	Signs and Symptoms of a stroke were discussed	Participants are able to identify signs & symptoms of stroke as well as when to call 911.
Cardiovascular disease	Housing Authority	Stroke Education	5/15/2019	18	Signs and Symptoms of a stroke were discussed	Participants are able to identify signs & symptoms of stroke as well as when to call 911.
Cardiovascular disease	Warren East Middle School	Brain Protectors Program	5/22/2019	320	Signs and Symptoms of a stroke were discussed	Participants are able to identify signs & symptoms of stroke as well as when to call 911.
Cardiovascular disease	Summer Hospital Volunteers program	Brain Protectors Program	6/3/2019	40	Signs and Symptoms of a stroke were discussed	Participants are able to identify signs & symptoms of stroke as well as when to call 911.
Cardiovascular disease	Chandler Memory Care	Blood Pressure	6/5/2019	14	Blood pressure results: 2 WNL; 8 in the Caution Zone; 9 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Obesity	WKU Upward Bound Program	Nutrition/Health Eating Habits Presentation	6/5/2019	16	Nutrition information was discussed	Participant objectives: 1. Describe mindful eating based on hunger and fullness 2. Explain balanced eating choices using MyPlate plan
Cardiovascular disease	Chandler Park Assisted Living	Blood Pressure	6/11/2019	14	Blood pressure results: 7 WNL; 5 in the Caution Zone; 2 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Obesity	Women in Charge Luncheon	What is a healthy diet? Presentation	6/25/2019	40	Diets were discussed	Participant Objectives: 1. Define the term "diet" 2. Explain the pros and cons of popular diets 3. Describe a healthy diet based on principles of balanced food intake and intuitive eating.
Cardiovascular disease	Bowling Green Retirement Village	Blood Pressure	6/25/2019	21	Blood pressure results: 10 WNL; 9 in the Caution Zone; 2 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Cardiovascular disease	Village Manor	Blood Pressure	6/27/2019	10	Blood pressure results: 4 WNL; 4 in the Caution Zone; 2 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
General Health	Hart of Autism Summer Camp	Hosted student campers who are diagnosed with Autism and educated them about different aspects of a hospital	6/17/2019	11	Children with Autism gained a better comfort level for hospitals, gained insight on the services provided and the value provided by their community hospital	Highly effective, based on feedback from parents and camp leaders
Obesity	International Center	Nutrition and Food Safety Presentation	6/26/2019	55	Nutrition information was discussed	Participant objectives: 1. List a serving size for a vegetable and how many servings should be consumed each day. 2. List the serving size of a fruit and how many servings should be consumed each day.
General Health	Hart County Chamber of Commerce Luncheon	Don Brown, MD presented information about treatment options for vascular problems	7/10/2019	61	Education provided to community to enhance their awareness about vascular problems	Feedback was positive; some attendees followed up with an appointment per subsequent feedback
Chronic Disease	Population Health Management	Reached out to patients to schedule medical appointments for noncompliant patients	7/1/2019-9/30/2019	258	Identified 32 patients with chronic diseases who had not been previously diagnosed	Very effective; have identified 32 patients with chronic diseases who are now being treated; this should improve health outcomes for them in the years ahead
Substance Abuse	Suboxone Clinic	Treated patients with opioid addiction in a Suboxone Clinic	7/1/2019-9/30/2019	26	Many patients are reducing suboxone dosages, abstaining from opioid use, maintaining a job and stabilizing their family life	Highly effective for a % of patients

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Substance Abuse	Hart Addiction Resource Team	Continued work toward opening a "half way house"; continued work with Hart Co. Jail on providing assistance to inmates being released; planned a community-wide educational session on addiction	7/1/2019-9/30/2019	13	Continued to disseminate brochures that provide information about resources to help with addiction problems; have a community forum scheduled in November 2019	Still contemplating how to measure the impact, as many variables are in play
Obesity	Adult Day Care	Importance of drinking water	7/2/2019	60	Reasons why you should drink more water and less sugary beverages were discussed	Participants were able to identify at least 3 reasons why more water should be consumed
Cardiovascular disease	Vermont Thread Gage	Blood Pressure Checks for employees	7/8/2019	28	6 WNL; 12 Caution Zone; 10 High	Employees can choose to have their blood pressure checked monthly as part of their wellness program.
Cardiovascular disease	Babysitting Clinic	Babysitting Class EHAC & Hands only CPR	7/10/2019	15	EHAC and Hands only CPR were discussed and performed	Participants are able to perform hands only CPR. They are also able to list s/s of a heart attack and when to call 911
Cardiovascular disease	Chandler Park Assisted Living	Blood Pressure	7/11/2019	15	Blood pressure results: 8 WNL; 5 in Caution Zone; 2 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Bowling Green Retirement Village	Blood Pressure	7/16/2019	16	Blood pressure results: 9 WNL; 4 in Caution Zone; 3 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Babysitting Clinic	Babysitting Class EHAC & Hands only CPR	7/17/2019	15	EHAC and Hands only CPR were discussed and performed	Participants are able to perform hands only CPR. They are also able to list s/s of a heart attack and when to call 911
Cardiovascular disease	Village Manor	Blood Pressure	7/18/2019	9	Blood pressure results: 4 WNL; 4 in Caution Zone; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Obesity	Housing Authority Health Fair	Amount of sugar in beverages	7/19/2019	60	School aged children learned the amounts of sugar in beverages and why it's important to choose water more often than the sugary beverages.	Children were surprised at the amounts of sugar in some of their favorite beverages including chocolate milk and sports drinks.
Cancer Prevention	Women in Charge Luncheon	A Guide to checking your skin	7/23/2019	44	Signs and symptoms of skin cancer were discussed	Participants were informed of prevention methods and treatment options as well what to look for with skin checks
Cardiovascular disease	Warren County Back to School Bash	EHAC	7/25/2019	> 1500 in attendance; 40 EHAC	40 educated on Early Heart Attack Care	EHAC education provided along side EMS providing hands only CPR education
Cancer Prevention	Auburn Back to School Bash	Skin Cancer Screening and Prevention	7/29/2019	~300 in attendance	35 children educated on sun safety	Skin Cancer prevention education provided with sun safety bracelets with UV sensitive beads provided to the children
Cardiovascular disease	Franklin Simpson School	Babysitting Class EHAC & Hands only CPR	7/30/2019	9	EHAC and Hands only CPR were discussed and performed	Participants are able to perform hands only CPR. They are also able to list s/s of a heart attack and when to call 911
Cardiovascular disease & Cancer Prevention	Bowling Green City Schools Readifest	EHAC & Sun Safety	7/30/2019	40 EHAC/75 Sun Safety	School aged children along with their parents were educated on Early Heart Attack Care (EHAC) including signs and symptoms of a heart attack and when to call 911. Students were also provided with UV bead bracelets and education on how to protect their skin in the sun.	Children were able to state 2 signs/symptoms of a heart attack. Children were able to state 3 ways to protect themselves in the sun and why they need to protect their skin.
Cardiovascular disease	HF Class, Health & Wellness	Heart Failure Class	8/2/2019	4	Nutrition and pharmaceutical information provided	Class objective: 1) Define Heart Failure, 2) Explain classes of drugs for HF and common side effects for each, 3) Describe the most common nutrition concerns for CHF
Substance Abuse	Opioid and Substance Abuse Response Plan Meeting	Planned use of funds for Kentucky Opioid Response grant	8/2/2019	23	Still in the planning stages	Too early to evaluate the effectiveness

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
General Health	Bubble Time at YMCA	APRN Derek Reeder led a discussion with parents of babies & toddlers regarding water safety and safe water exploration; demonstrated water safety devices; also read a story to the children	8/2/2019	12	Parents of young children learned ways to keep their children safer around water	Feedback from the parents indicated this event was effective at promoting safety for children around water
Obesity	Adult Day Care	Sugar in beverages	8/6/2019	50	Sugar demonstration	Participants were able to identify how much sugar is in each drink and advised to drink more water as a healthier option
General Health	Liberty Association of Baptists Health Fair at Horse Cave Baptist Church	Individuals were provided with health information	8/10/2019	30	Individuals gained information about healthcare services and programs available in the community	Effective for disseminating information
Cardiovascular disease	Chandler Park Assisted Living	Blood Pressure	8/13/2019	12	Blood pressure results: 7 WNL; 4 in Caution Zone; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular disease	Village Manor	Blood Pressure	8/22/2019	8	Blood pressure results: 4 WNL; 3 in Caution Zone; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Obesity	Adult Weight Management Health and Wellness	90 Minute Adult Weight Management Class	8/26/2019	4	Participants can: 1) list ways to increase their physical activity 2) Identify the parts to MyPlate for creating a balanced, healthy meal 3) Set SMART goals to promote healthier habits	Each participant set one goal to work on individually
Cardiovascular disease	Chandler Park Assisted Living	Blood Pressure	9/10/2019	12	Blood pressure results: 6 WNL; 6 in Caution Zone	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cancer Prevention	Women's Conference	Skin Cancer Screening and Prevention	9/12/2019	385	49 Women Screened for skin cancer by dermatologist Dr. Skaggs; 63 Women educated on skin cancer prevention	

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
General Health	Civil War Days - Hart County	Individuals were provided with current blood pressure readings and health information	9/13/2019	15	Individuals were provided with current blood pressure readings and health information	
Cancer Prevention	Medical Center Scottsville Health Fair	Skin Cancer Prevention	9/14/2019	150	50 participants educated on skin cancer prevention and sun safety	
Obesity	10K Health & Fitness Expo	Body Fat	9/20/2019	~600 in attendance	150 screened for body fat percentage	Participants educated on where their body fat percent is in relation what is ideal for their sex and age as well as how body fat percent contributes to overall health.
Cardiovascular Disease	10K Health & Fitness Expo	Blood Pressure	9/20/2019	~600 in attendance	150 Blood Pressures Completed	
General Health	Horse Cave Heritage Festival	Individuals were provided with current blood pressure readings and health information	9/20/2019-9/21/2019	295	Individuals were provided with current blood pressure readings and health information	Very effective
Obesity	Med Center Health 10K Classic	10K Race 10K Wheelchair Race 5K Run/Walk Children's Race	9/21/2019	~2000 in attendance		~ 2000 participants in the community race
Cardiovascular Disease	Healthy & Safe Aging Conference	Stroke Risk Screenings	9/26/2019	~120 in attendance	Blood pressure results: 6 WNL; 8 in Caution Zone; 6 High	Stroke screenings completed on 20 people others educated on stroke risk as well as signs/symptoms. Results turned into UKY Stroke Program
Wellness	Population Health Management at MCC Rural Health Clinics	Reached out to patients to schedule medical appointments for noncompliant patients	10/1/2019-12/31/2019	126	Scheduled 48 patients for medical visits who were overdue routine physical exams	We continue to see patients who are overdue for physical exams
Substance Abuse	Hart Addiction Resource Team	Continued work with Hart Co. Jail on providing assistance to inmates being released; worked with new substance abuse facility (Kentucky Christian Recovery) to develop a solution to provide medical services to their patients	10/1/2019-12/31/2019	11	Kentucky Christian Recovery is on the verge of opening; they are awaiting approval from insurers	
Substance Abuse	Suboxone Clinic	Treated patients with opioid addiction in a Suboxone Clinic	10/1/2019-12/31/2019	32	Many patients are reducing suboxone dosages, abstaining from opioid use, maintaining a job and stabilizing their family life	

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Prevention	Adult Day Care	Presentation on flu prevention	10/1/2019	55	Prevention methods were discussed	Participants were able to identify ways to help prevent the flu and recognize signs and symptoms
Cardiovascular Disease	Shop HQ	Blood Pressure	10/15/2019	18	Blood pressure results: 5 WNL; 8 in Caution Zone; 5 High	Several participants were not aware of a blood pressure issue and were advised to seek medical attention.
Obesity	City of Bowling Green	Healthy Cooking Demonstration	10/16/2019	100	Healthy snack was prepared and recipe was available	Employees were able to see and taste an easy healthy snack
Cancer Prevention	Morningside	Breast Cancer Prevention and Awareness	10/21/2019	80	Information was available for breast cancer prevention	
Obesity	Emmerson Climate Russellville	Body Fat Analysis	10/22/2019	20 Body fat analysis completed	5 out of 20 of the body fats were WNL. 15 were above desired limit for good health	Able to discuss how to reduce body fat in a healthy way and refer to our programs as applicable.
Cardiovascular Disease	Village Manor	Blood Pressure	10/24/2019	8	Blood pressure results: 3 WNL; 3 in Caution Zone; 2 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Cardiovascular Disease	Dollar General Scottsville	Stroke Risk Assessment	10/29/2019	22 Stroke Assessments Completed; ~100 in attendance for event	22 Participants educated re: their stroke risk based on blood pressure and other risk factors identified through the screening.	
Obesity	Butler County High School	Body Fat Analysis	10/30/2019	140	40 out of 140 of the body fats were WNL. 100 were above desired limit for good health	Able to discuss how to reduce body fat in a healthy way and refer to our programs as applicable.
Obesity	BRASS	Healthy Eating and how to read nutrition labels	10/30/2019	5	Healthy Meal planning and how to read labels were discussed	Part pants were able to plan balanced meals using MyPlate model
Cardiovascular Disease	Village Manor	Stroke Risk Assessment	11/6/2019	22	Blood Pressure Results: 11 WNL; 6 in Caution Zone; 5 High	22 Participants educated re: their stroke risk based on blood pressure and other risk factors identified through the screening.

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Obesity	Village Manor	Body Fat Analysis	11/6/2019	22	8 out of 22 body fat screenings were WNL. 14 were above desired limit for good health	Discussed how to reduce body fat in a healthy way and refer to our programs as applicable.
Cardiovascular Disease	Corvette Museum	Blood Pressure	11/8/2019	41	Blood Pressure Results: 23 WNL; 10 in Caution Zone; 7 High	Employees are able to identify what category their blood pressure is in and what the treatment options are if out of range. Employees are also eligible for a lower insurance premium if blood pressure is in range.
Obesity	Corvette Museum	BMI	11/8/2019	41	13 out of 41 BMI's were WNL; 19 overweight; 8 obese	Discussed how to lower BMI in a healthy way and refer to our programs as applicable.
Cardiovascular Disease	Chandler Park Assisted Living	Blood Pressure	11/12/2019	14	Blood Pressure Results: 8 WNL; 5 in Caution; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Substance Abuse	A Conversation About Addiction presented at Hart County High School	Worked with Hart Addiction Resource Team to provide a program to the community on recognizing, and following up on Addiction problems	11/14/2019	53, including vendors, speakers and organizers	Provided 31 people of the general public with information about resources available to those struggling with addiction	Feedback was very positive; many questions were asked to various clinical groups present, and to the two featured speakers

General Health	Work Readiness Day - Hart County High School	Conducted mock interviews at Hart County High School	11/20/2019	142	High School Juniors learned how to better answer interview questions in preparation for employment	Highly effective based on feedback from event organizers

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
General Health	Work Readiness Day - Hart County High School	Provided tours of The Medical Center at Caverna to High School Juniors	11/20/2019	142	High School Juniors learned about various departments and programs, and job opportunities at a Critical Access Hospital in their community	Highly effective based on feedback from event organizers
Substance Abuse	Bowling Green City School Systems	Donation made by MCH to support implementation of the substance use prevention program Preventure	Fall 2019	330	330 7th grade students at Bowling Green Junior High School were provided a screening. If they scored high in any of the 4 personality traits screened, they qualified to receive the Preventure program. The groups are led by facilitators trained in the Preventure program. 123 of the 330 students screened qualified for the program.	"Preventure reveals key information about participants' behaviors relating to substance use motives, drugs of choice, patterns of coping and sensitivity. Multiple studies have shown Preventure to be effective beyond reducing drinking and drug use rates. Benefits include: delayed onset of drinking and binge drinking; reduced risk for alcohol-related problems; reduced risk for mental health problems such as anxiety, depression; few misconduct problems." Students at BGJHS have been actively engaged in the program, enjoy and look forward to the group sessions.
Diabetes	Housing Authority	Presentation on diabetes	11/20/2019	12	Discussed diabetes prevention, prediabetes, signs & symptoms of diabetes and passed out the diabetes risk assessment questionnaire.	
Obesity	Adult Day Care	Healthy Holidays presentation	12/2/2019	60	10 tips on how to avoid weight gain during the holidays were discussed	
Cardiovascular Disease	Chandler Park Assisted Living	Blood Pressure	12/10/2019	15	Blood Pressure Results: 8 WNL; 6 in Caution; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Cardiovascular Disease	Village Manor	Blood Pressure	12/19/2019	8	Blood pressure results: 4 WNL; 3 in Caution Zone; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Obesity	Adult Day Care	Heart Healthy New Years Resolutions	1/7/2020	60	10 Healthy New Years Resolutions were discussed	Participants were able to set at least one healthy resolution for this year
Cardiovascular Disease	Health & Wellness Expo	Stroke Risk Assessments	1/11/2020	40	Participants able to identify what they're risk is of suffering from a stroke.	Participants aware of signs/symptoms of stroke, risk factors and what they can do to change their risk of developing a stroke.
Cardiovascular Disease	Chandler Park Assisted Living	Blood Pressure	1/14/2020	15	Blood Pressure Results: 8 WNL; 6 in Caution; 1 High	Regular blood pressure checks made monthly at this facility. Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range
Obesity	UK Extension Office	"Are you Well" Balanced Nutrition and My Plate	1/14/2020	14	Participants will be able to plan a balanced meal using MyPlate template and learn about intuitive eating	Participants were able to plan a balanced meal using MyPlate template
Cardiovascular Disease	New Mather Metals	Stroke Risk Assessments	1/15/2020	92	Blood pressure results: 15 WNL; 31 in Caution Zone; 46 High	92 Participants educated re: their stroke risk based on blood pressure and other risk factors identified through the screening.
Cardiovascular Disease	Western KY Heart & Lung	CPR	1/31/2020	12	12 Participants CPR Certified	
Cardiovascular Disease	KY Partnership Annual Meeting	Blood Pressure and Hands only CPR	2/1/2020	10	Blood Pressure results: 3 WNL; 7 High	Participants encouraged to seek medical attention for high blood pressure. Participants engaged in how to perform hands only CPR if someone is in need.
Cardiovascular Disease	Adult Day Care	Heart health	2/5/2020	65		
Cardiovascular Disease	Morningside Assisted Living	Blood Pressure & EHAC	2/7/2020	40	Blood pressure results: 15 WNL; 16 in Caution Zone; 9 in High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range. They were also able to recognize heart attack symptoms and know when to call 911

Identified Priority	Event Name & Location	Activity Completed	Date of Activity	Number of Participants	Outcomes	Effectiveness of Activity
Cardiovascular Disease	Chandler Park Assisted Living	Blood Pressure & EHAC	2/11/2020	16	Blood Pressure Results: 8 WNL; 8 in Caution	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range. They were also able to recognize heart attack symptoms and know when to call 911
Obesity, Diabetes	Active Day Adult Day Care	Balanced Nutrition	2/13/2020	52	Objectives: 1) Identify 5 food groups 2) Recognize best choices for types of foods in each food group 3) Follow MyPlate pattern to plan a balanced meal	Clients assisted in planning a balanced meal by choosing foods from each food group to create a "meal" on a dry erase board
Cardiovascular Disease	Charters	Blood Pressure & EHAC	2/18/2020	16	Blood Pressure Results: 5 WNL; 8; 3 in High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range. They were also able to recognize heart attack symptoms and know when to call 911
Cardiovascular Disease	Housing Authority of Bowling Green	Blood Pressure & EHAC	2/19/2020	14	Blood Pressure Results: 6 WNL; 4 in Caution; 4 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range. They were also able to recognize heart attack symptoms and know when to call 911
Cardiovascular Disease	Village Manor	Blood Pressure & EHAC	2/20/2020	9	Blood Pressure Results: 4 WNL; 3 in Caution; 2 High	Participants are able to identify what category their blood pressure is in and what the treatment options are if out of range. They were also able to recognize heart attack symptoms and know when to call 911
Cardiovascular Disease	Western KY Heart & Lung	CPR	2/21/2020	4	4 Participants CPR Certified	
Diabetes	Women in Charge Luncheon	The Heart of Diabetes	2/25/2020	40	Participants aware of how to prevent diabetes as well as signs and symptoms of diabetes.
